

BEWARE OF SPONSORED FACEBOOK ADS BEING CIRCULATED BY SCAMMERS.

These ads contain links that lead users to fake websites designed to resemble legitimate retailers, tricking them into entering personal information and card details to carry out fraudulent transactions online.

Here's how to stay safe:

- ✓ Shop only through official websites or verified apps
- ✓ Always check the URL before making a purchase
- ✓ Be cautious of deals or surveys that seem 'too good to be true'
- ✓ Never share your personal or debit card information unless you're sure it's for a transaction you initiated
