

Important Notice Regarding Debit Card Availability

Dear Valued Members,

We are currently experiencing a significant increase in reported fraud activity over the weekend. As a precautionary measure to protect our members, debit card usage is temporarily unavailable while we investigate and address this matter.

We urge all members to immediately review their account activity through Home Banking at psegnuclearcreditunion.com to verify any unauthorized transactions. If you identify suspicious or fraudulent activity, please report it to the Credit Union as soon as possible.

Please be assured that **member Credit Union accounts have not been compromised**. This issue is limited strictly to debit card transactions.

Our team is actively working to resolve this situation and is implementing enhanced fraud protection measures, which are expected to be in place within the next 24 hours.

We understand the seriousness of this disruption and sincerely apologize for the inconvenience. Protecting your financial security remains our highest priority, and we are committed to restoring full service as quickly and safely as possible.
